PROFESSIONAL EXPERIENCE

Kindred Todo, Boston, MA

Technical Intern

May 2026 - Present

- Conducted product testing and Android support for Kindred, while using PostHog to analyze user engagement and product performance.
- Worked with Nix, React, Expo, and MongoDB while contributing to the groundwork for an AI-powered productivity analytics and recommendation system

Upper Main Line YMCA, Berwyn, PA

Summer Camp Counselor

June 2024 - Present

- Directed daily activities for groups of 20 children aged 4-11, ensuring their safety, engagement, and enjoyment in a structured camp environment
- Strengthened group cohesion by mediating conflicts, resolving disputes, and fostering a positive, inclusive camp culture

EXPERIENTIAL LEARNING

Yale Summer Program in Astrophysics

Research Participant

June 2025 - August 2025

- Selected as 1 of 32 students nationwide in order to study astrophysics, astronomy, and scientific programming
- Led photometric analysis of a supernova, measuring its brightness and color index over time, and submitted validated data to the American Association of Variable Star Observers (AAVSO)
- Co-authored a research paper and presented a final report, demonstrating expertise in data analysis, scientific communication, and collaborative research.

AUTRS

Research Manager

October 2024 - August 2025

- Led a 3-person research team at a nonprofit to investigate autism and education, producing reports on the best ways to improve learning outcomes for neurodivergent students
- Streamlined project workflow by setting research goals, facilitating weekly meetings, and providing constructive feedback, ensuring timely and high-quality results

State Senator Carolyn Comitta's Student Advisory Council

Council Intern

January 2025 - April 2025

- Researched policy and supported budget planning for a state senator, contributing to constituent services and the opening of a new public park
- Led policy discussions and delivered a final presentation proposing solutions to SEPTA funding, strengthening leadership, public speaking, and teamwork skills.

PERSONAL PROJECTS

GeoGuessr AI

2023

- Designed and trained a Convolutional Neural Network (CNN) using TensorFlow and NumPy that predicts the player's location based on in-game images, achieving an accuracy of under 1000 miles
- Applied advanced machine learning techniques to a real-world gaming challenge, showcasing technical problem-solving and model optimization skills
